

Mission Statement

The mission of Kids in Flight™ is to use aviation as a tool to empower seriously ill children and their families through flight experiences and educational programs.

Vision Statement

The vision of Kids in Flight™ is to launch nationwide aviation related events and flight experiences for seriously ill children and their families in order to instill a positive attitude towards their personal crises. Through the creation of an educational curriculum, the organization will provide sensitivity training to create public and government awareness of the problems facing seriously ill children. Kids in Flight will also become a resource for the children and their families both in terms of education and aviation-related topics.

Core Values Statement

The core values of Kids in Flight™ integrate the wonder of aviation as seen through the eyes of children with the positive attitude and perseverance necessary to cope with serious illness through integrity, trust, inspiration, determination and compassion.

Integrity

- We will hold ourselves to the highest standards in our words and actions.
- We will always behave ethically and require similar practices of all those associated with the organization.

Trust

- We will always operate with the safety and happiness of the children as our highest priority.
- We will present the organization and its associated individuals in a straight forward manner.
- We will be a reliable resource for the children and families experiencing serious illnesses and health-related issues.

Inspiration

- We will be role models for a positive attitude and optimistic outlook in all situations.

Determination

- We will provide positive, educational experiences to facilitate perseverance among participant's families through our understanding, experience and knowledge.

Compassion

- We will always be sensitive to the nature and severity of the crises faced by each family.
